

# We all need more money, LET US HELP!!!

To Improve the Energy Efficiency of your Air Conditioning System.  
**Have us perform an Air Conditioner Tune-Up.**

## Annual Maintenance for your Air Conditioner

Keep your cooling system running at peak performance by having an annual tune-up.

### Tune-ups can help you:

- Save money on your monthly electricity bill.
- Improve the efficiency of your air conditioner.
- Achieve better humidity control.

During the tune-up service, we will use the **new state-of-the-art computerized equipment to accurately analyze your cooling system's performance.**

Based on this analysis, the technician can adjust your air conditioner to optimize its energy efficiency.

Make sure you ask for the **\*Service Assistant™ tool.**

**Call us for more details. 815-254-6954**

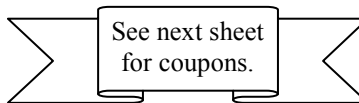

\*Please note that most companies do not have this tool or training.

*We service the heart & soul of your home.*
